SECRET, 25X1 25X1 Comment. Probably repaired SP guns which. 25X1 probably belong to the 39th Gds Mtz Rifle Div. 25X1 25X1 Corment. Information on the occupation of the Schoenwalde 25X1 Fliegerhorst installation was previously submitted by another source on 20 January 1953. 25X1 which moved toward Falkensee and possibly belonged to one of the three troop units stationed in Schoenwalde, presumably went to field exercises which were observed in the area west of Berlin since 16 February. 25X1 Comment. The units entrained probably were units of the unidentified gum artillery brigade (US) of the 34th Arty Div (US) which, according to transportation records, went to Altengrabow with shipment record No 61296 on 16 February, probably for short term firing practices. 25X1 Comment. In mid-February, the Sth Gds Mecz Div probably conjucted winter practices as did other units in East Cermany. An unconfirmed report by another source indicated that, on 14 February, elements of the 65th Mort Brig (US) of the 6th Arty Div on two trains went from Rathenow to Grimma; they were possibly scheduled to perticipate in the field exercise of the 8th Gds
